

Hydronic Specialties

Hydronic Boilers

U.S. Boiler (Burnham): Residential, light commercial hydronic heating boilers. Firetube and water tube boilers that are quiet and feature the intuitive Sage control system. usboiler.net

Hydronic Accessories

Elbi of America: Residential and commercial expansion tanks, commercial hydronic accessories, and Commercial Storage tanks.. elbi.net

Miljoco: Temperature and pressure gauges. miljoco.com

Boiler Buddy: Buffer tank.

Circulators, Pumps, Recirc Systems

AquaMotion: Super efficient, eco-friendly, pumps, circulators & recirculation systems. Very easy to install and maintain. aquamotionhvac.com

Heat Exchanger

SWEP: Brazed plate heat exchangers, single and double wall options. swep.net

Radiant Heating

Thermalboard: 5/8" tall composite plywood radiant floor with aluminum heat transfer, grooved out to 8" on center, using 3/8" tubing. thermalboard.info

Radiant Insulation

NOFP: Easy-to-install flexible foam insulation for hydronic radiant systems. nofp.com

rFoil: Easy to install roll out reflective radiant insulating material. rfoil.com

Fan Convectors

Myson RCU: Recess wall-mounted with flow and zone control built in. mysoncomfort.com

Myson: Kickspace, wall units, hot & chilled water fan convectors. mysoncomfort.com

Radiators

Myson: Décor, and Select style radiators. Recessed and wall mounted fan convectors for residential and multifamily residential applications. Wall mounted electric resistance heaters. mysoncomfort.com

Baseboard

Jaga: Recessed custom home wall, ceiling and floor heating and cooling units. jaga-usa.com

Embassy: Cost competitive residential baseboard. embassyind.com

Controls

Controls

HBX Control Systems: WiFi thermostats. Whole house control, boiler staging control, radiant floor and heat pump controls. hbcontrolsystems.com

Plumbing

Electric Water Heater

Hubbell: Engineered residential, commercial, Industrial tank type and instantaneous water heaters. hubbellheaters.com

Steam To Water Generators

Hubbell: Semi-instantaneous steam fired ASME water heater utilizes steam for heating potable water in heavy duty commercial applications without storage tank. hubbellheaters.com

Pressure Booster Systems

Canariis: A wide range of domestic water pressure booster systems. canariis.com

Heat Pumps and Air Handlers

Heat Pumps

Hubbell: Heat pumps with electric backup.

Aermec: The ANK reversible heat pump produces hot water of up to 60°C in outdoor temperatures between -20°C and 42°C. It reduces heating costs by up to 30% compared with the best conventional systems and condensation boilers. aermec.com

Air Handlers

Jaga: Recessed custom home wall, ceiling and floor heating and cooling units. jaga-usa.com

Solar Hot Water

Note: JTG/Muir can include all necessary solar specialties to make a complete solar hot water system. This includes controls, drain back tanks and pumps.

AET: Solar thermal systems. Flat Plate solar thermal collectors, CSI approved for residential DHW systems low income housing rebates. AETSolar.com

Powerpanel: Solar electric and solar hot water systems.

Water Treatment Chemicals

Water Treatment

Fernox: Hydronic non toxic chemicals, and open loop exchanger cleaning chemicals. Propylene glycol, non-toxic. fernox.com

JJM: Condensate neutralizers, residential and Commercial. jimboilerworks.com.

GTP: Residential hydronic feeder systems. gtpcompany.com
