Performa Now There Is A Better Pex

Performa Radiant Barrier Pex Tubing An Industry Breakthrough: Super Flex Pex

Zurn has introduced Performa Barrier Pex tubing, a new Pex tubing technology that represents the best of

Silene and Engle manufacturing processes. Performa provides superior flexibility, burst pressures, dimensional stability and UV protection characteristics than Engle manufactured Pex offered by Uponor, Rehau and others.

Performa, a patented process that has been under development for over three years, offers a 30 year product warranty. Performa meets ASTM F-876 F-877 and is compatible with all Zurn hydronic manifold systems. Performa is directly price competitive with all major manufacturers in America. Visit www.jtgmuir/manufacturers/zurn.html or call 800-493-8432.

Zurn® has added a new uncoiler to its product offering. This uncoiler will hold and dispense two coils at the same time. The tubing carriages can be easily converted to hold stretch wrapped coils or taped coils. The QDISP will accommodate up to 1000' 3/4" coils.

Compare Barrier Pex Tubing		
	Zurn Performa	Uponor/Rehau
Quick Burst Pressure (psi 180F)	375	305
Tensile Strength (psi 180F)	2992	1806
UV Stability	Excellent	Good
Dimensional Stability	Excellent	Good
Flexibility	Excellent	Good

Select the Best Radiant Tubing...Performa from Zurn.

Zurn Alumicor Pex Al Pex

Zurn is pleased to announce the introduction of Alumicor Pex Al Pex tubing. As with all Pex Al Pex tubing, Alumicor provides a 100% oxygen barrier and tubing memory for a flat lay out. This tubing is especially attractive for distribution tubing for radiators and other higher temperature applications. Alumicor meets ASTM F-1281 and is offered with a wide range of fittings, tools and adaptors for current Zurn hydronic manifolds. Alumicor is price competitive with all major tubing manufacturers and carries a 25 year warranty. For more information visit www.jtgmuir/manufacturers/zurn.html Or call 800-493-8432.
