Contractors: On Site Technical Training

Our mobile hydronic training truck is equipped to provide technical training classes with operational equipment at your location. Correct installation and service training classes for your technicians is a must for successful installations.

Engineers & Specifiers: Lunch and Learn

See and hear our ultra high efficiency equipment work at your location along with a lunch class of your choosing.

Wholesalers: Counter Days

Impress and train your customers with a working demonstration of our products.

To schedule a visit to your location contact your JTG Muir salesman at 800-493-8432 or email to: morgan@jtgmuir.com
