## HTP REBATE PROGRAM??

**HeatTransfer**  
Designer and Manufacturer of  
Ultra High Efficiency Hot Water Heating Systems

## Who Says High Efficiency Can't be Competitive?

**The Best Value in Condensing Boilers  
Excellent Quality  
The Right Price For The Times**

### WALL HUNG

The Contender is a very compact, sealed combustion, 2" PVC vented hydronic heater designed specifically for hydronic closed loop applications, available in sizes from 50,000 btu thru 120,000 btu. The Contender can be used in conjunct with a Contender or Superstor indirect fired water heater to generate generous amounts of domestic hot water.

### QUALITY

The Contender uses the same durable stainless steel heat exchanger and control as the Munchkin with improved condensate removal and air elimination. Millions of Contender boilers have been successfully installed world wide in just four years.

### PRICE

The Contender can be the price leader because the entire heat exchanger is assembled utilizing a fully automated manufacturing process which realizes important cost savings. The entire construction of the boiler is modular permitting quick, standardized assembly.

### SERVICE

The Contender is designed for easy access to all components from the front and sides quick service.
